designed for life

## Molift Partner 230 - your perfect partner for heavy lifting tasks

### • user friendly

- low weight with high lifting capacity
- low chassis gives easy access
- linear lift combined with 4-point suspension makes positioning easy
- new battery pack that can be charged whenever you wish
- new charger that takes all types of Molift Power Pac batteries.

### • 4-point suspension

- 4-point suspension prevents the user from feeling squeezed, but gets instead an open sitting position with lots of space around the head.
- 4-point suspension together with a Molift sling gives the user correct and comfortable position from sitting to lying and vice versa as the loops of the sling slides into a natural position during the lift.

### • Linear lift for extra comfort and security

- linear lifting pattern gives increased stability, comfort and safety.

### • service and security

- Molift Partner 230 is equipped with all necessary safety devices such as emergency stop, and electronic and manual emergency lowering, etc.
- Electronics register the number of lifts and informs when a service is necessary.

## Molift - designed for life

At times with increasing demand for efficiency in the healthcare sector and a growing focus on patient needs, it is easy to neglect the needs of the carer. The need to give better help and caring avoiding heavy lifting situations, avoiding putting your own back at risk, without being completely exhausted after work and still have some surplus energy when the workday is over.

This is the insight that drives us at Molift. The company which was started 20 years ago by a man who through his own experience saw the need for lifting and moving patients in an effective and comfortable way – for both patient and carer.

We have since then delivered products that compliment the natural movement of the body, that is both simple and intuitive to use. Products designed to give the patient a better life in addition to providing the carer with real support and optimum work enjoyment.

This is the true meaning of; Molift – designed for life
