Castors	Back Ø75 mm, lockable, polyurethane	2
	Leg, Ø75 mm, polyurethane	2
Material		Steel and aluminium

Molift - designed for life

At times with increasing demand for efficiency in the healthcare sector and a growing focus on patient needs, it is easy to neglect the needs of the carer. The need to give better help and caring avoiding heavy lifting situations, avoiding putting your own back at risk, without being completely exhausted after work and still have some surplus energy when the workday is over.

This is the insight that drives us at Molift. The company which was started 20 years ago by a man who through his own experience saw the need for lifting and moving patients in an effective and comfortable way – for both patient and carer.

We have since then delivered products that compliment the natural movement of the body, that is both simple and intuitive to use. Products designed to give the patient a better life in addition to providing the carer with real support and optimum work enjoyment.

This is the true meaning of; Molift – designed for life
